

Regina Criminal Lawyer

Regina Criminal Lawyer - Our Group mostly concentrates on pursuing legal solutions concerning commercial and insurance fraud and theft. As the worldwide commercial crime rate skyrockets, the government seems to be allocating less and less resources to fight it. As such, disputes that were dealt with by the government have currently been passed down to the civil courts.

Our company has tremendous skill in civil matters as well as criminal matters. They use their skill in these areas, together with our firm's personal contacts, so as to make sure we provide our client with all the needed resources. The preliminary investigation is important to the end resolution of a fraud lawsuit. Because of this, our lawyers interact regularly along with the police department, as well as several investigative agencies and forensic accountants, statistical and computer professionals, handwriting analysts, and private investigators so as to make sure that a thorough investigation is done.

We likewise offer private seminars about cutting-edge problems that our clients may be interested in. During these seminars, we give our opinions and explain legal issues that relate to the topic.
