

Criminal Law Firms in Regina

Criminal Law Firms in Regina - In our company, we specialize in Intellectual Property & Technology law offering a full range of services to clients concerning the aspects associated to intellectual property. This might consist of licensing, industrial designs, copyrights, trade-marks, confidentiality, trade secrets, biotechnology, software, and other technology matters. We are proactive in our approach to providing timely solutions to clients' matters.

We offer our services to a lot of clients from both the public and private sectors. Our passionate business clients care about the innovative services and products, offering the creative energy in order to be successful. They come from diverse fields like for instance the film, software, music, travel, service and manufacturing industries. Our firm offers complicated legal services and tools designed to secure and protect our clients' products and services. When clients have worldwide issues, we work extensively with foreign legal counsel to provide solutions.

Our practice seeks to apply innovative approaches to solving technology and business problems. We keep up to date with trends in emerging technology and media, alert to any possible legal effect on our clients. To ensure various legal services are obtainable to our clients, our lawyers form client teams with other lawyers, when appropriate.

Copyright

We are able to offer professional legal suggestion in the fields of copyright legislation and international copyright conventions. The holders of copyright will receive recommendation on infringement and enforcement. We also draft and review license arrangements, and assist with the registration and protection of clients' copyright both internationally and locally.

Trade-marks

As registered Trade-mark Agents, we prepare and prosecute trade-mark applications, carry out name searches and trade-mark, represent clients in trade-mark litigation, obtain pre-clearance and clearance both nationally and globally, and conduct trade-mark licensing. We draw upon established relationships with a broad network of trade-mark agents within different jurisdictions to assist clients involved in mark arrangements and globalized name. This ensures smooth delivery on an inter-jurisdictional basis. Clients receive help in the resolution of disputes and the enforcement of trade-mark right in the administrative forums and courts.

Technology

We now have clients who are involved in the commercialization and development of new software and various innovative services and products. Our existing services can help the various emerging and new companies and organizations in the following fields: nutraceutical, hospitals, biotechnology, pharmaceutical; video game publishing and development; and software design and publishing. Our technology professionals advise clients concerning matters like for instance e-business and the internet, using "open source" code, licensing, technology transfer, systems acquisitions, technology aspects of commercial transactions and mergers, joint ventures, distribution agreements, corporate financing and structure, and strategic alliances.

Patents

Our Practice members advise clients on contractual problems associated to patents, like for example the licensing and acquisition of patent rights.

Industrial Design

Our industrial design professionals help clients in the preparation and prosecution of industrial design registrations in Canada. Appropriate referrals to U.S. agents in connection with design patents in the U.S. can even be offered.

Litigation

We also litigate for our clients in issues concerning disputes involving licensing, confidentiality agreement, industrial design, copyright, passing off, trade-marks, patents and trade secrets.
