

## Patent Lawyers Regina

Patent Lawyers Regina - Our teams of Intellectual Property lawyers are known for its excellence and innovation in the various services related to commercialization, enforcement and acquisition of intellectual property assets.

More than ninety experts make up our team, with extensive knowledge in the three service lines: Business, Prosecution, and Litigation. Our intellectual property practice is ranked amongst the best in the nation. Our intellectual property team has knowledge in the areas of patents, designs, trade-marks, trade secrets and copyrights. Our litigators are amongst the very best within the planet.

Our intellectual property team's skill consists of due diligence, portfolio analysis, audits and other connected services which are part of corporate transactions and financing. We are professionals in the assessment of technology for intellectual property protection, including strategies for portfolio development involving procurement of rights, commercialization and licensing techniques, and offensive and defensive litigation.

Also in our practice, together with our intellectual property lawyers, we have patent and trade-mark agents, and technical consultants. Our professionals have strong backgrounds in the scientific and engineering sectors. In science the team has knowledge in biotechnology, biomechanics, biochemistry, chemistry, endocrinology, food science, life sciences, genetics, immunology, molecular/cellular biology, pharmacology, microbiology, physiology, neuropsychology, physics, organic chemistry, toxicology and neurophysiology. In engineering disciplines, team members excel within the following fields: chemical, aerospace, biomedical, industrial, civil, computer science, material science, metallurgy, electrical and mechanical.
